

Name _____

M&M Radioactive Decay Data Sheet

IMPORTANT NOTES: Use this form to record the count totals for the entire class.

We are normalizing data for convenience only for plotting data on the linear graph paper. It is absolutely not necessary to normalize data. This is an extra, unnecessary step.

To normalize, just divide each entry in the “Total Counted” column by the first entry in that column.

Counting Period	Total Counted	Normalized Value
Initial Count		1.0
Count 1		
Count 2		
Count 3		
Count 4		
Count 5		
Count 6		
Count 7		
Count 8		
Count 9		
Count 10
