

2014 Society Winter Dinner

As we get together again for this year's society winter dinner, the American Nuclear Society (ANS) is excited to be able to provide our Keynote Speaker, Dr. Mikey Brady Raap. Dr. Brady Raap is the current ANS President, and a chief engineer with the Nuclear Systems Design, Engineering & Analysis Group within the National Security Directorate at the Pacific Northwest National Laboratory (PNNL) in Richland, Washington. She is the recipient of ANS' Special Recognition Award for Media for her service during the Fukushima Accident, 2011. PNNL provides technical assistance to the Tokyo Electric Power Company for the remediation of the Fukushima Daiichi Nuclear Power Station. Her presentation will discuss Waste Management, Analytical Labs, Damaged Fuel & Debris Disposition, Grouting and Sealing Technologies, Groundwater Control and Treatment and Community Revitalization.

See RSVP Details below!!! Great Venue - The Las Vegas Springs Preserve! Dinner will be a Tour of Tuscany Buffet featuring items such as Caesar Salad and Chicken Parmesan.
