“1ANS” Brings Major Changes to ANS National and to Local Sections

As many of you may be aware, the ANS is undergoing a period of rapid transition. I want to communicate to you some of the changes that will have the biggest effect on our local section members. I realize that some of the changes may seem drastic and potentially costly to those wishing to remain members. Unfortunately, the ANS is in dire straits, and drastic changes are required in order to ensure the survival of the society.

First, going forward, there will be no distinction between national and local members. This means that to be a member of the society.

October 2019 Dinner Meeting

The 25 Oct 2019 ANS Trinity Section dinner meeting was held at the Drury Plaza Hotel, Santa Fe, NM. Our speaker was Dr. James P. Holloway, Professor of Nuclear Engineering, and Provost and Executive Vice President for Academic Affairs, University of New Mexico. Dr. Holloway’s topic was “Education in a Multicentury Arc.”

Canceled / Reworked 13 March 2020 Dinner Meeting

Our original plans were to hold a 13 Mar dinner meeting at UNM, with the undergraduate and graduate students who were slated to present their talks and posters at the annual ANS National Student Meeting as our presenters. This meeting would have given them the opportunity for a trial run in front of our membership and their peers, and we had planned to vote for student awards. However, the meeting was canceled because of the increasing constraints on public gatherings as a result of the COVID-19 pandemic have resulted in our rescheduling this meeting into the Fall (probably September time frame). Additional information will follow.

Annual Election

The spring 2020 Trinity Section annual elections will be held in May 2020 electronically. Results will be announced by email, and the new Trinity Section members will take their positions with the national officers in mid-June. An electronic ballot will be circulated soon.

The ballot will contain candidates.

Volunteers Needed

We currently have two committee chair vacancies: Public Information / Outreach and Membership. If you have an interest in helping on the management team of the Section, please contact any of the Executive Committee members (see box on page 2).

We also need individuals to be committee workers, to support public outreach and membership. If you have an interest in helping on the management team of the Section, please contact any of the Executive Committee members (see box on page 2).

Fundraising

As a result of the proceeds Trinity Section earned from our work on three recent ANS Topical meetings, plus several generous private donations, we have been able to accomplish several things in our public information and outreach program and in our support for the students of the UNM Student Section.

Gold & Silver Awards

Ten of our members received gold (50-year) or silver (25-year) membership certificates from ANS National this year. They will be honored at a future Section dinner meeting.

Gold:
George Anastas, Albuquerque
Dr. Nelson S. DeMuth Jr., Los Alamos
Dr. Guy P. Estes, Los Alamos
Peter H. Kuck, Albuquerque

Silver:
George E. Dials, Las Cruces
Stacey L. Eaton, Los Alamos
James R. Felty, Santa Fe
Dr. James H. Lee Jr., Edgewood
Dr. David I. Poston, Los Alamos
Walter T. Short, Los Alamos

Members of the Executive Committee: 

Stacey L. Eaton, Chair 
Dr. Walter T. Short, Vice Chair 
Dr. David I. Poston, Secretary

considered a member of ANS at any level, you will be required to register with ANS national and pay the national dues. This requirement will be fully effective in January 2023. During the three-year transition period, local members who are not currently national members will receive a reduced rate on their national dues and have their $25 entrance fee waived. The purpose of this change is to create a coherent nuclear community, as well as to facilitate better communication of nuclear news, policy, and events both nationally and regionally. Each local section will receive 5% of the dues revenue for members in their jurisdiction. Non-members will still be able to participate in all local section events, as well as make donations to the local section to support events and student activities.

Second, local sections will play a smaller role in bidding for and organizing topical meetings and will no longer share in the profit from those meetings. The staff at ANS national will identify potential host cities and negotiate hotel contracts and most other logistics. The purpose of this change is to use the clout of the national society to obtain better terms in contracts with hotels and other service providers, thereby saving money. Members are still encouraged to manage the technical content of the meeting. Furthermore, if local section members successfully recruit new sponsors for the topical, the local section will receive a share of the sponsorship money.

These changes are intended not just to improve the financial solvency of the ANS, but also to increase value for members and create a more unified society. This will, in the words of ANS CEO Craig Piercy and ANS President Marilyn Cray, position the ANS “to play a more influential role in advancing nuclear science and technology for the benefit of humankind.”

• $550 in total awards in the name of the Section in NM local, regional and state-level science fairs.
• Two $500 scholarships for members of the UNM Student Section.
• $3,000 in travel assistance for UNM Student Section members to attend and present papers at the annual ANS Student Meeting.
• Small amounts of financial assistance to help defray costs of the UNM Student Section for their annual fall BBQ and open house, outreach activities, and similar events.

Please see the “Fundraising” page on our web site for additional information. ANS Trinity Section is a registered IRS 501(c)(3) corporation, so donations are tax deductible. ANS Trinity Section can also be designated to receive donations through employee giving programs. We are also exploring the possibility of corporate sponsorships for specific Section activities.

(HOLLOWAY, continued from page 1)

Dr. Holloway led us on a 250-year sweep through education from how it existed in the 1700s through today—from a situation where a primary school education was a privilege; through grammar school and then middle school becoming “free” and the norm for the public, with secondary education becoming the differentiator; through universal public secondary education with college becoming the differentiator; to today, where there is discussion of college potentially becoming “free” and the new normal, with graduate education at research universities becoming the differentiator. Dr. Holloway also included anecdotal stories about how the rise of the small-town colleges, of college sports, and of social living groups fitted into this educational arc.
