

What Role for Nuclear Energy in Addressing Climate Change?

**Newton Dem's Climate Crisis Subcommittee
webinar**

Wednesday, March 1, 7:00 pm to 8:30 pm

A discussion, followed by a question and answer session, on the potential role nuclear energy could play as the U.S. struggles to address climate change through decarbonization of the grid, transportation, and buildings.

The forum will be moderated by
Robert Kalantari, CEO
Engineering Planning & Management

Dr. Sukesh Aghara,
Associate Dean of Graduate
Studies and Research,
UMass Lowell

Dr. Jacopo Buongiorno, Professor,
Nuclear Science and Engineering
and Director, Center for Advanced Nuclear
Energy Systems,
Massachusetts Institute of Technology (MIT)

John Kotak,
Senior Vice President
Nuclear Energy Institute (NEI)
