"The Nuclear Renaissance: A resurgence of Nuclear Energy"

Jim Reinsch, Senior Vice President of Bechtel Power was named President Bechtel Nuclear on March 15, 2000. He is responsible for all of Bechtel's global activities in nuclear regarding profit/loss, customer relations, operations, project management, marketing, business development and global strategy. Jim has over 35 years of experience in the EPC industry, most of it spent in nuclear power. In June 2004, Jim was elected Vice President and President elect of the American Nuclear Society. He currently serves on the Board of Directors of the Nuclear Energy Institute (NEI).

Jim began his successful career with Bechtel in 1969. He has held increasingly responsible positions in Bechtel project management, labor relations and marketing and business development. He previously managed Bechtel's Nuclear Operating Plant Services organization and served as a Regional Manager for fossil and nuclear projects for North America. He has served as Senior Regional Executive for Southwest Asia and President of Bechtel Canada.

Jim earned his Bachelor of Science Degree in Industrial Relations and Production from the University of Maryland.

Jim and his wife Yvonne, live in Frederick, Maryland. They have two grown children and six grandchildren.
